CodeREADr Free Plan Overview

The CodeREADr Free Plan offers an excellent opportunity to explore our platform's capabilities without any financial commitment. Here's a detailed breakdown of what the Free Plan includes, its limitations, and answers to frequently asked questions.

Key Features of the Free Plan

- 50 Scans per Month: Perform up to 50 scans monthly at no cost.
- Unlimited Services and Users: Create unlimited services and add users across as many devices as needed.
- Easy Setup and Experimentation: Test our web services, onboard users, and experience the app's scanning capabilities firsthand.
- No Credit Card Required: Sign up hassle-free and upgrade to a paid plan at any time.

The Free Plan is perfect for demoing and configuring the mobile app for your specific needs.

Limitations of the Free Plan

- Limited API Access: API functionality is limited for Free Plan users.
- Auto Sync Disabled: Automatic synchronization of data is not included.
- CSV Download Link Disabled: Viewing scan records via CodeREADr-hosted download link is restricted. Standard exports are still encouraged.
- Database Limit: A maximum of 100,000 database values can be used.
- Scan Record Retention: Scan records are stored for only 90 days.

- Limited Access to Specialized Services: Features like “Table Builder” and “Check-In/Out” are not included.
- Restricted Automated Tasks: Only basic automated tasks are available.

If you’re a developer or an enterprise client requiring more than 50 scans or API access for testing, please contact us at support@codereadr.com. Share details about your company and intended application, and we’ll review your request promptly.

FAQs About the Free Plan

What happens if I downgrade from a Paid Plan to the Free Plan?

When downgrading to the Free Plan, you’ll be subject to its limitations. Ensure you export your scan records and databases within 90 days of downgrading if you’ll need that data in the future.

Can I control who uses CodeREADr?

Yes, you have complete control over user access. Create and distribute app credentials (usernames and passwords) to trusted individuals or businesses. You can revoke or modify access to specific services or all services at any time. If all services are removed, the user will no longer be able to sign in to the app.

Do you offer support?

Yes, we provide support for Free Plan users planning to upgrade to a paid plan. Our platform is designed as a self-service web application, but if you need clarification or encounter special use cases, we’re here to help. Free support includes:

- Knowledge Base and Best Practices: Comprehensive articles to guide you through configuring “Services” (tasks).
- Live Chat Assistance: Ask questions while building your services. If our Chat team is unavailable, you can email support@codereadr.com for a quick response.

For paid plan users, support is included with your subscription.

The CodeREADr Free Plan is ideal for exploring our platform and testing its capabilities. Upgrade anytime to unlock advanced features and enhance your user experience!
