Google API Services User Data Policy for the CodeREADr Connector App

https://www.codereadr.com/knowledgebase/google-api-services-user-data-policy/

Overview of the CodeREADr Connector Add-On for Google Sheets

The CodeREADr Connector is a valuable Add-On available through the Google Workspace Marketplace, designed specifically for use with Google Sheets. This tool enhances functionality by allowing integration with various Google APIs.

Compliance with Google API Services User Data Policy

When using the CodeREADr Connector, it is crucial to be aware of the Google API Services User Data Policy. This policy governs the use and handling of information obtained from Google APIs. Our application strictly adheres to these guidelines to ensure data security and privacy.

Adherence to Limited Use Requirements

Importantly, the CodeREADr Connector complies with the Limited Use requirements set out in the Google API Services User Data Policy. This compliance underscores our commitment to protect user data and restrict the transfer of information to third-party applications without proper authorization.

By using the CodeREADr Connector with Google Sheets, you can be confident that data handling and privacy are managed with the utmost care, in full compliance with Google's established standards.
